Papers have been seized which show these men are in London, and are now planning new schemes, designing to make Lyons, Marseilles, Madrid, Turin, Rome, Naples, Vienna, Moscow and Berlin, scenes of conflagrations. NEW YORK.

Secretary Fish's Resignation—The Treaty in Canada—John P. Hale Recovering—General Grant's Nomination—The Naval Academy—Another Declination—A Defaulting Postmaster — Immigrant — The Mine Tragedy—Spanish Matters—The Allegheny Knights.

NEW YORK, June 2, 1871.

SECRETARY FISH'S RESIGNATION.

The *Tribune's* Washington correspondent states that there is no doubt but that Secretary Fish long intended to resign as soon as the treaty of Washington was ratified, and that formally or informally he placed his resignation in the hands of the President a few days ago. Many of the Presidents most trusted advisers have, however, opposed any change in this direction, on the ground of its not being absolutely necessary and would weaken the administration. The President is also personally opposed to Fish's resignation, and remarked to a Cabinet Minister, on Sunday, that Fish would not leave if he (the President) could help it. It is generally supposed that the matter will be allowed to rest for the present. Should Fish insist that his resignation be accepted, he will be requested to act as Arbitrator on the part of the United States at Geneva, and it is believed that he will accept the mission.

THE MINING HORROR.

A special Scranton dispatch to the *Times* says: Mine Inspector Williams was advised last night by Mr. Gaines, one of the jurors of the second inquest (the one of Williams), calling upon him to discharge the jury assembled and proceed no further with the attempt to investigate himself, as further investigation would only make matters worse. It has become apparent to Williams that it is impossible to exculpate himself from blame in the Pittston disaster, and he has left Pittston for his home in Wilkesbarre. What action will be taken in the case has not yet transpired. Public opinion is very much in favor of severely punishing him, and it is thought had he longer remained in Pittston he would have been lynched at once and hanged in the public streets. No more deaths have occurred among the surviving victims, and they are all out of danger.

THE TREATY IN CANADA.

The Toronto *Dispatch* says the Dominion Government has not agreed to ratify nor lower the Communal ratification of the treaty in Nova Scotia. So great was the alarm excited by the report that the treaty had been or was to be ratified by the Ottawa Government without reference to the Parliament, that the authorities telegraphed to know whether or not the Dominion Government was free to deal with that part of the treaty respecting fisheries. The Ottawa *Times* declares that Sir John A. McDonald is not committed to the treaty. Anonymous letters in the same paper says he is more likely to oppose than to sustain the articles affecting Canada. The friends of Sir John A. McDonald here are in receipt of information which leads them to the same conclusion.

INDIGNATION.

A mass meeting of citizens was held this evening, under the auspices of the Irish Democratic Union, to express condemnation of the treaty of the Joint High Commission, and protest against the ratification. A resolution was adopted, declaring that the diplomatic expression of regret for depredations of the Confederate cruisers was not a modification or reparation for the insult and injury sustained; that the permission given the Canadian fishermen to use the American fisheries was in utter disregard of the New England fishermen and a surrender of mercantile interests, worth seventeen millions, for a consideration of about seven thousand dollars; that there could be no terms of condemnation too strong for the condemnation which remained while the American citizens were condemned to penal servitude by the British Government for words spoken in United States speeches, made by Gen. Halpin, Hon. Wm. E. Robinson, and others.

SPANISH MATTERS.

The Washington correspondent of the *Sun* alleges that on Monday last General Sickles was instructed by telegraph to notify the Spanish Government that the estates belonging to American citizens in Cuba which had been confiscated, must be immediately returned to their owners, and damages of their sequestration must be paid, or that warlike measures will be at once set upon foot by the American Government. The order to General Sickles was to give the Spanish Government one week in which to make its answer.

STRIKERS.

A party of strikers yesterday drove out all the miners at work in the Keystone, Amador, Layward, Poundstone, Downsand and Mahony's gold quartz mines, at Sutler Creek, the second most productive mines in California. They demand an advance from two dollars, which they have been receiving for twelve years, to $2.50. They have taken possession of all the mills and machinery, with the exception of Amador. The owners and officers generally refuse to accede to the demand of the strikers, and will call on the State authorities for aid.

THE ALLEGHENY MASONS.

The Allegheny Commandery escorted by St. John's Commandery of Philadelphia, arrived at the depot at Jersey City this afternoon, where they were received by Hugh Depayer Commandery and escorted to Taylor's Hotel, where they partook of a collation. They then crossed to New York where they were met by the Grand Commanderies of New York and Brooklyn, and escorted to the St. Nicholas Hotel, where they remain to-night. To-morrow they will be escorted to the Steamer Oceanic by the Sir Knights of this and neighboring cities.

EMIGRANTS.

The arrival of emigrants at this port was larger during last month than during any previous month this year. Nearly every week from five to six thousand landed at Castle Garden. The majority of these were Irish and Germans. The next in point of numbers was last month, the arrivals being 42,471, making 77,191 thus far this year. In May last year 46,858 arrived, making a total up to the end of that month of 88,878.

A NOBLE OFFER.

The *Post* says the House of Rothschilds at Frankfort, we understand, has made a proposition to the city of New York to take the consolidation debt of the city as it shall be issued and pay off all the old loans as they fall due. The terms are said to be highly honorable to the city credit, and the Commissioners of the sinking fund are to-day engaged in considering them.

DEFAULTING POSTMASTER.

An action to recover $1,454 was recently brought by the United States Government against General S. H. Roberts, late Postmaster of Brooklyn, for a deficiency found in his accounts when his term of office expired. Yesterday the case came up in the United States Circuit Court, and the defendant having failed to appear, the case went by default.

THE CAPITAL.

Issuing Greenbacks.

SMUGGLING.

The Treaty of Washington.

New Commissions.

A DELICATE CASE.

WASHINGTON, June 2, 1871.

ISSUING GREENBACKS.

The Controller of the Currency yesterday informed Secretary Boutwell that he has during the past month issued seven hundred and fifty thousand dollars' worth of greenbacks. This will be employed in the redemption of the three per cent. certificates, of which there are now outstanding about thirty-four million five hundred thousand dollars.

SMUGGLING ALONG THE BORDER.

Numerous complaints have been received at the Treasury Department from merchants and manufacturers in the Plattsburg, N. Y., Collection District, that there is so much smuggling along the Canada border as to seriously injure them in their business. Single cases involving thousands of dollars each are reported.

THE WEATHER.

Synopsis—The high wind which prevailed on Thursday evening at Key West still continues with a rising barometer, and has probably extended westward into the gulf. The cloudy and threatening weather of the middle Atlantic has extended to Blue Ridge with fresh southeastardly winds, but no rain has been reported. Clear weather has prevailed in the New England States and on the upper lakes. Heavy rains are probably confined to a small area and are reported from Western Tennessee. The area of the highest barometer has continued on the Atlantic coast, and the pressure has fallen somewhat in the Upper Mississippi valley. The temperature has increased on the East Atlantic and in the northwest.

Probabilities—It is probable that the high winds in the gulf will advance with rains to the coast of Louisiana. The weather will probably clear away in the Middle States, and a falling barometer with local rains will probably be experienced west of the Blue Ridge. Pleasant weather will probably continue from Wisconsin to the Atlantic.

CERTIFICATES.

The Secretary of the Treasury directs the Assistant Treasurer at New York to notify holders of the three per cent. certificates issued under the acts of March 2d, 1867, and July 25th, 1868, bearing date December 16th, 1867, to March 16th, 1867, of the denomination of five thousand each, numbers 1,374 to 1,710 inclusive, and the denomination of ten thousand each, numbers 1,585 to 1,738 inclusive, will be paid on presentation at his office, and that from and after July 31st, 1871, such certificates will cease to bear interest, and will be no longer available as a portion of lawful money reserve in the possession of any national banking association. The amount of certificates described is $1,750,000.

THE TREATY.

A special dispatch says: Reports from many of the principal points on the border show dissatisfaction that the new treaty does not contain any provisions for reciprocity, which they say would be of advantage to them. Canada, it is urged, neither produces anything which we need and cannot produce ourselves, nor furnishes a market for American production. Under the reciprocity treaty Canada would sell her grain, potatoes and lumber in the United States, and instead of buying our manufactured articles, would import them from England, and then smuggle large quantities of them over the border.

A DELICATE CASE.

A very delicate case, involving the conflicting claims of the Union Pacific and Kansas Pacific Railways for bonds and lands, has been referred for decision to the Attorney General, who has announced that his opinion will be ready this week. The conflict arose from a resolution introduced in the House by the late Thaddeus Stevens, which it is claimed by one party, by inference, repeals part of the charter of the other.

SPANISH CLAIMS.

Among the claims that will come before the United States and Spanish Commissioners, who are soon to commence business in this city, are those of Angarica Cassanova and Mora, which are contained in the official list which the Secretary of State heretofore sent to Congress. This fact disposes of the recent statements that they have been excluded, and that measures have recently been taken against Spain to enforce their consideration.

THE MOUNTAINS.

The Lovely and Beautiful Scenery—The Prospects for Summer—The Cresson House—New Hotel—Ebensburg.

[Correspondence of the Pittsburgh Gazette.]

EBENSBURG, June 2d, 1871.

The grand old Allegheny Mountains wear a beautiful and life cheering appearance in this lovely month of fresh green and roses. We may read in the glided accounts of travel in Switzerland, smiling Germany, ornamented France and sunny Italy, of scenes of grandeur that bid the soul involuntarily to arise and pour forth in eloquent gratitude hyms of thanksgiving to the creator of all things. But hardly in the broad universe can be excelled, the sublime beauty, the solid grandeur and massiveness of the Allegheny Mountains of this locality. Nature has indeed been lavish in her gifts to us in scenery. The eye never grows tired in surveying the vast panorama studied with rugged mountain pinks reaching up and kissing the heavens, the dense green forests, the smiling valleys and perpendicular mountain sides all radiant in simple wild flowers of beauty. Then the bracing atmosphere that gives life and tone to the man; that forbids sickness and hardens the body to endure the romantic walks over miles of mountains. Indeed, we have a Paradise here, and it is a pity all the denizens of the hot, pent up and smoky can city not make pilgrimages hither to rest and recuperate and build up for more vigorous battle with life.

Ebensburg, one of the prettiest towns in the Union, is putting good steps forward, and rapidly improving. The society in this place is remarkable for culture and refinement. But little industrial work is going forward, and the stranger might readily jump to the conclusion that none but the learned and professional hold residence here. The several hotels have been fitted up for the accommodation of summer boarders.

In the delightful old town of Munster, which is nearly half way between Ebensburg and Cresson, on the branch railroad, there has been, through the enterprise of spirited gentlemen, Messrs. Noon & Farren, a very fine hotel erected for city summer boarders. It is beautifully situated, and will comfortably accommodate about thirty guests. The rooms are all large, airy and well furnished, and the proprietors promise to keep a tip-top table all season. An excellent turnpike road passes the door, affording magnificent drives in all directions, and affording a pleasant evening walk to Cresson or Ebensburg. Already a number of Pittsburghers have put up at this new summer boarding-house, and have been eloquent in their praises of the grand scenery with which it is surrounded, and of the courteous attentions they received from the genial hosts. We wish the house success.

At Cresson arrangements have been made on a most liberal scale for a heavy summer patronage. The grounds look lovely, while the houses have been repainted and refitted. Mr. Mullen will preside in his incomparable *role* of host during the season.

To all Pittsburghers so situated as to accept of the invitation, we say, pack up for the mountains, and we will make your visit pleasant and afford you good homes and good treatment at our numerous mountain houses and summer resorts. MOUNTAINEER.

Small Pox.

While small pox in New York is fluctuating with a tendency to decline, in London it has been manifesting renewed activity, its fatal cases during the week ending May 6th having reached 288, the highest weekly number attained in the present epidemic, and almost three times as great as the largest number returned in any week of the several outbreaks between 1840 and 1871. During the week mentioned it produced 55 deaths in Liverpool, 22 in Southampton, and 16 in Newcastle-on-Tyne, the other large cities of the United Kingdom being almost exempt from it. Its persistence in London and Liverpool is remarkable. It likewise continues very prevalent in Brussels, where, during the week ending April 29th, it caused 40 deaths. Berlin, also, has been suffering from the ravages of small-pox, which, during the week ending May 4th, occasioned 92 deaths out of a total of 523, in a population of about 800,000. The New York Board of Health report that during the week ending May 20th the total vacinations were 5,180. Of these 619 were primary and 4,561 secondary.

"WILL you get up and give this lady a seat?" said a conductor to a young man in an excursion car yesterday. "Excuse me," said the person addressed, "I don't feel like standing." That conductor turned about and *did not* seize a car hook and beat out the brains of that disobliging young man. He showed a spirit of forbearance that would have been creditable to a Christian.—*Louisville Commercial.*

GENERALITIES.

Kate Manley, aged 13 years, was burned to death at Sun Prairie, the other evening, by the explosion of a kerosene lamp which she was filling.

CAPTAIN N. DOMINGUEZ, a patriotic Spaniard, has drawn some attention to himself by frying the ears and tongue of a patriotic Cuban. He had 'em for breakfast.

A NASHVILLE paper reports the "obsequies of the last surviving member of the first Grand Lodge of Masons in Tennessee." Why they buried the poor man alive does not appear.

THE state of the weather is thus correctly described by a contemporary: Yesterday was the hottest day of the season. So was the day before, and to-day promises to be precisely the same thing.

A HARTFORD boy who went out West a few years ago, having been unusually prosperous, generously remembers his old time friends who are needy. A poor mechanic of Hartford was recently made happy by the receipt of $3,000 from the friend of his youth.

The Louisville *Commercial* says: "Saturday night Peter Minor was assailed and knocked down by a robber in Memphis, but did not get any money." Now we never knew before that it was customary for people to get any money by being assailed and knocked down.

THERE was a double golden wedding in Joliet, Wisconsin, one day last week. The brides were sisters, who were married on the same day fifty years ago. In the home of their mother, now a venerable lady of ninety years, they celebrated the half-century anniversary.

THE Richmond (Va.) steam forge and rolling mill, paying particular attention to the manufacture of car wheels, have a hammer of 3,500 pounds; a forge that can handle forty tons a week; a 100 horse power engine in the rolling mill and employ fifteen hands. There is but one other steam forge south of Baltimore.

Good Health, which has become one of the most valuable and indispensible of magazines is just entering on the third year of its existence. A critical editorial department has been added to it and placed under the charge of Dr. Carl Both. We consider *Good Health* to be a really most important and useful work which ought to be in every family, and are glad to know that it is fast getting to be regarded as an authority on sanitary questions.

THE United States Supreme Court has recently decided that the stocks of National banks cannot be pledged by the stockholders to the bank issuing them as security for loans or discounts. The Court also held that surplus moneys expended by any corporation in making improvements, are liable to the income tax. The latter decision is only an extension of the original ruling that moneys expended on "betterments" cannot be deducted from income.

SOME time since the steamship Seagull, Captain Dutton, of the Baltimore and Charleston line, was materially aided whilst in a crippled condition on the ocean, by the steamship Virginia, Captain Hunter, of the Philadelphia line. On Thursday last, both ships being in the harbor of Charleston, at 8 P. M. the Virginia was boarded by the officers of the Seagull, and Captain Hunter made the recipient of a handsome gold-headed cane, in acknowledgment of the services he rendered the Seagull on the 21st of January last. The head of the cane bore the inscription: "Presented to Captain Hunter, of the steamship Virginia, by the officers of the steamship Seagull, May 24, 1871."

POLITICAL.

IT is said that the Irish and Germans in California will hold conventions to recommend that they be represented on the State tickets of the two parties. The Germans demand either the State Printer, Treasurer or Secretary of State. The politicians are nervous about it.

BUT a few years ago Lew. Campbell and Vallandigham were bitter personal and political foes—leaders in Ohio politics. Val. was the special representative of intense pro-slaveryism, while Campbell was equally set in Northern sentiment. Now both are Democrats, but while the veteran copperhead sues for peace and accepts the situation, the old free-soiler refuses to be converted.

AT a meeting, a few days ago, of the "Old Friends," a Democratic organization in New York city, Mr. John McKeon made a speech urging the nomination of General Sherman for President, and Mr. Francis Kiernan, of New York, for Vice President. With such a ticket he thought the Democrats would not be "suspected of want of honesty or patriotic devotion to the whole Union."

GOVERNOR SCOTT has refused to accept the resignation of Mr. James C. Leahy, Judge of Probate of Newberry county, South Carolina. Mr. Leahy says that his life is in danger, and that his only safety is in resigning his office. Governor Scott replies to the effect that to accept the resignations of faithful officers would be to encourage other outrages. If the officers continue to do their duty they may correct many of the existing evils.

THE two candidates for Governor of Kentucky are on the stump together. Governor Leslie, the Democratic nominee, said, in reply to General Harlan, a few days ago, that the Democracy did not propose to oppose the thirteenth, fourteenth and fifteenth amendments, or to disturb the rights of the colored people under them; but when the opportunity should be afforded for their repeal, or their being set aside by the proper tribunals, they would favor such action.

An Appeal.

The following appeal to the public for aid to the sufferers by the Pittston disaster has been issued, and it is hoped that the benevolent throughout the country will respond liberally to the call:

TO THE BENEVOLENT PUBLIC.

In behalf of a grief-stricken community, paralyzed by a repetition of the great disaster at Avondale, we appeal to you for substantial aid. Of the sixty live men that entered the shaft at this place on Saturday morning, forty-five have been taken out alive, many of whom cannot long survive. Those who have already died were buried yesterday, mourned by the entire community. They leave behind them fourteen widows and thirty-six orphan children. In their behalf we ask your charity. Six months of idleness—enforced idleness—has made this community poor. Those who had the wherewithal to give have given during the last winter until their benefactions have exhausted their ability. Many are still on the verge of starvation, and now, just as renewed labor had begun to cheer the heart, we are stricken down by this awful calamity.

Will you give us your mite towards relieving the widows and fatherless.

All contributions may be sent to Theodore Strong, Esq., President First National Bank, Pittston, Pa. By order of the Committee.

In commenting on the above appeal, the Scranton *Republican* says: "No one except those who have witnessed the grief and suffering of the sorely afflicted by this awful calamity can form any conception of the great necessity for relief for those so suddenly cut off from support. We hope that the people throughout the country will respond liberally to this call upon their generosity. These families—widows and orphans—are poor, and must be helped. Let there be no delay."

The Cost of the Freedmen's Bureau.

It is interesting to note at how small an expenditure the work of the Bureau has been accomplished. The total expense in money has been $13,928,504 27—in goods, $2,330,778. These goods were unused army stores left on hand at the close of the war, and would hardly have realized half their cost at public sale. The collection of bounties has cost $279,655; transportation, $239,902.83; schools, $3,572,365.94; while the whole amount expended in charitable purposes, including army stores at full cost, has been $7,677,590.96. Of these fifteen millions of dollars, government has contributed but eleven millions, the remainder being taken from the Refugees' Fund—that is, from rent of lands and buildings taken from the Confederates, from payments made by the freedmen themselves, and from army stores. It may be fairly asked whether any great national work that accomplished so much has ever cost so little.—*From the June number of Lippincott's Magazine.*

THE SUNNY SOUTH.

LAST Saturday morning Henry Chapman was terribly scalded on the Washington road, near Baltimore. He was seated upon the front of a swill cart, when his horse stumbled, causing the cart to tumble over a small embankment, and as the hogshead struck the earth the head of the vessel came out, causing the hot slop to flow over him, scalding him in a shocking manner.

LAST Thursday two very heavy sharks were caught at the North Atlantic wharf, Charleston. Each of them measured seven feet, and contained eight juvenile sharks, who, when released by a Cæsarean operation, paddled around in a lively manner in a bucket of salt water. The two larger ones were quickly divested of their sand paper coating, and, being cut up into steaks, were divided among the not over fastidious workmen on the wharf.

A YOUNG lawyer of Richmond, named W. F. G. Garnet, Jr., was shot in three places, and dangerously wounded, on Tuesday night, by a young man named A. N. Clarke. The men occupied rooms in the same building, and, upon going to his room, about 10 o'clock, it being very dark, Clarke was attacked by Garnett, who was intoxicated, and is supposed to have mistaken Clarke for a robber. Clarke, not knowing who his assailant was, fired upon him, with the result above stated.

"WE," says the Austin (Texas) *State Gazette*, "have been shown a private letter from T. A. Sampson, of Pine Bluff, Arkansas, in which he relates a very extraordinary circumstance of a negro preacher, who was stricken dead by lightning while addressing the congregation. And, what is very remarkable, on the succeeding day, when his remains were carried to the grave, and while in the act of burying him, another bolt from heaven struck his coffin, leaving his remains a ghastly sight."

A NORTHERN Democrat who went South to seek his fortune a year since, having expended all his surplus cash, was forced to seek employment as a teacher in a private school, whereof a majority of the pupils were colored. Recently a party of men, disguised, waited upon him at night, and taking him to a piece of woods, stripped and then gave him five days to quit that region. But the Northerner is plucky, and announced in a card to the local paper that he "will pursue to the bitter end of the law any one of the perpetrators of the shame inflicted on him, or, if they will give him a man's chance, *will drop all law* against them and will settle the matter with them 'man to man and foot to foot.'"

THE Jackson *Whig and Tribune* of the 27th says a young man named Lee Cox, killed his uncle, Millner Cox, near Lexington, Henderson county. An estate of five or six thousand dollars in money was left in Texas to the Cox family. Young Lee Cox went out there and drew the money, and about the time of the murder, old man Millner Cox, one of the heirs, who some time ago moved from this county to Arkansas, was in Henderson county, taking legal steps to get all or part of the legacy. A misunderstanding of a violent character took place between the old man and his nephew, resulting as above stated, in the death of the uncle. The young man insists that he killed his uncle for slandering his (Lee Cox's) mother.—*Memphis Avalanche.*

CONDUCTORS and passengers report two persons were killed at Cole's Station, thirty miles from Montgomery, yesterday, just as the up train arrived at that point. One of the persons killed was Mr. Oscar McCluskee, who once worked in the old Howard factory in this city. The other party was a one-legged man, whose name has not been reported. Both were from the Tallassee factory, and were coming to Columbus. Just as the train stopped the one-legged man stabbed McCluskee with a pocket knife. As he was falling he fired a pistol at his assailant and the ball passed through his body from side to side. McCluskee died before the train left and the other was expected to live only a few moments.—*Columbus Sun, 26th.*

ABOUT a week ago a mule that had been in the possession of W. N. McCool, a Memphis constable, for seventeen years, and was remarkable for its gentleness and docility, was bitten by a mad dog. Last Saturday the effects of the bite began to manifest themselves; the mule became restive and uneasy. On Sunday the animal was perfectly furious. When Mr. McCool visited the stable the mule attacked him furiously, and catching him with its teeth by the collar, threw him to the ground and shook him most violently. Mr. Mc. succeeded in escaping from the mad animal unhurt. The mule was secured at length in the stable, where it became more frantic, and came near tearing the stable down. A bucket of water was given to the animal, but this only rendered it more intensely infuriated, slobbering and champing of the teeth in all the symptoms of a well developed case of hydrophobia. As a matter of safety and to put a stop to the mad paroxysm of the animal, Mr. McCool got his gun and shot it dead on the spot.

Steinway Sales—Bulletin No. 20.

Since the publication of last bulletin, the following pianos of the famous Steinway & Sons' make were disposed of:

Rev. Dr. D. C. Byllesby, a Steinway square piano; James Duncan, Esq., a Steinway square; Mrs. C. F. Ryan, a Steinway square; William McKeown, Esq., a Steinway square grand; S. A. Purviance, Esq., a Steinway square grand; Mrs. Jamison, a Steinway square; Miss Lizzie Peet, a Steinway square; Thomas S. Mitchell, Esq., a Steinway square, etc., etc.

Nothing equalling the popularity and sales of the Steinway Pianos has ever been known in this country or in Europe. Some enthusiastic amateurs go so far as to assert that the higher style of classical music cannot be done justice to on any except a Steinway Piano. And, indeed, it is not to be wondered at when we remember that the highest boast of all other manufacturers is that their instruments are made exactly like the Steinway's. This far-famed Piano may be found in great variety at the ware rooms of Kleber & Bro., who are the exclusive agents for this section of the country.

Piano versus Burdett Organ.

It is a singular fact that among male lovers of music nine men out of every ten much prefer the organ—at least the Burdett organ—to the best piano ever made, while the lady portion of the community at once and invariably detect the superiority and fullness of tone of the Burdett over that of its competitors.

The manipulation and touch of these organs is so very easy and prompt, that ladies of delicate constitution find them the only reed organ they can use without feeling fatigued and overworked. Whether for the simple and pathetic home melodies, or the most brilliant instrumental pieces, as well as an accompaniment to sacred vocal music, the Burdett stands altogether unrivalled, and the enormous business done with them by the sole agents, H. Kleber & Bro., would certainly indicate that they are as fully appreciated here as they are elsewhere.

LOUISVILLE
CEMENT.
The Best--The Cheapest.
The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.
It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.
The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.
The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.
At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.
A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

NEW ADVERTISEMENTS.

THE
New Orleans,
Mobile and Texas
RAILROAD CO.
Are building a Trunk Line, connecting New Orleans with Mobile on the east, and giving the
Only Railroad Connection
between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly TEN MILLION DOLLARS of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division; leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight per Cent. Mortgage Bonds
upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the Stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
First Mortgage Bonds,
to the amount of $12,500 per mile, and
Second Mortgage Bonds,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscriber can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
NO BETTER SECURITY
Has Been Offered
to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser
More than 77 Per Cent.
greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. *an 8 per cent. currency bond at 90 will give a return of $2,614 18 more than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.*
The bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1 to date of remittance.
Subscriptions will be received in Pittsburgh by
Messrs. S. McClean & Co.,
BANKERS.
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

7-30 GOLD LOAN
OF THE
Northern Pacific Railroad.
RAPID PROGRESS OF THE WORK.
The building of the Northern Pacific Railroad, (begun July last,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 560.
A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend as a profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest, (more than 8 per cent currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the road is completed, on 23,000 ACRES OF LAND to every mile of track, or 500 acres for each $1,000 bond. They are exempt from U. S. Tax; principal and interest are payable in gold. Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.
LANDS FOR BONDS.—Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.
SINKING FUND.—The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The land grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people which is more PROFITABLE OR SAFE.
EXCHANGING U. S. FIVE-TWENTIES.—The success of the New Government 5 per cent Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.
OTHER SECURITIES.—All marketable Stocks and Bonds will be received at their highest current prices in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc. can be obtained on application at any agency, or from the undersigned. For sale by

THE fact of Jeff Davis preaching treason in the South, and Vallandigham urging an acceptance of the situation in the North is significant. Can it be possible that the giving out recently is true, that the Democratic party would go before the people in 1872 without any platform whatever? It looks very much like it. Under different banners they will labor to catch votes, preaching a variety of doctrines antagonistic to each other, but conformed to suit the locality for which concocted. This would indeed be a novel method of conducting a Presidential campaign but, driven to desperation, there is no telling what the opposition may do to obtain power over the land.

GEN. GEORGE W. MCCOOK, of Steubenville, Ohio, the Democratic nominee for Governor, is well known in this city as a gentleman of large ability and attainments and of good war record. Unfortunately, although a representative of the young Democracy at one time, as well as a war Democrat, he has of late been training in the non-departure, fogy and anti-progressive element of his party to whom he owes the honor of his nomination. It will seem strange to his friends should he prove an earnest champion of the Vallandigham doctrine, but like all Democrats, we presume he regards platforms, pledges and promises as mere toys to tickle the people for the while and then to be cast aside as worthless. With gallant old Ben. Wade in the field this member of the fighting family will be effectually laid out and Ohio will be saved from the disgrace of going Democratic.

AND NOW the Democracy of Tennessee have spoken out and in resolving to organize themselves into a *posse comitatus* "to be ready at the call of the United States Marshal or Sheriff, to arrest and bring to justice any person violating the provisions of the Ku-Klux act in Tennessee, and binding themselves to pursue with the "hue and cry" the offender beyond the confines of the district; offering a standing reward of $100 for the arrest and conviction of every offender in the civil district, and requesting the Democrats of other counties to organize clubs under the resolutions," have recognized the fact that Ku-Kluxism does exist in that State and that the general government acted wisely and well in reaching out its arm of strength to suppress the bandits. What say our Democratic editors of the North to this confession of their Tennessee brethren that there is such a thing as Ku-Kluxism in the South? The Tennessee Democracy accept the late constitutional amendments, avowing that "inasmuch as the present State Constitution gives the colored man every civil and political right enjoyed by the whites, the validity of the XIVth and XVth Amendments forms no substantial issue before the people of Tennessee, and no person or paper continuing the agitation of that question is entitled to the confidence or support of the Democracy of the State."

"HE, (Jeff. Davis) should imitate the example of *the greatest man the South ever produced, General Lee*, and hold his peace, and attend to his private affairs."—*Post.*

Yes, he should not be allowed by his Democratic friends to go around through the South speaking to audiences who receive his disloyal and revolutionary harangues "with applause." He should be taught to hold his tongue, and not let the "cat out of the bag." It won't do to let the people know the real sentiments and intentions of the Democrats should they regain power. They should all "muffle their tongues," "muzzle their presses" and thus hood-wink the dear people by such cant phrases as the "Radical altar of Despotism," "Imperialism and centralization, the dual monster that threatens to swallow up the liberties of the people," and other such nonsense that the *Post* finds in the New York *World*, and readily adopts as its own. What "liberties" pray tell us, good neighbor, are, or are likely to be swallowed up. Your liberty remains unrestrained to call "the Radical leaders professional LIARS," and to show your insincerity by wishing your only honest, outspoken exemplar "to hold his peace and attend to his private affairs." Tell us, dear shrieker for the "Constitution as it was," do you adopt the Fourteenth and Fifteenth amendments to the Constitution as the law of the land, or do you intend hereafter when the proper time comes, to join with the great mass of your party in declaring them "revolutionary and void," and call upon the Supreme Court to set them aside? Give us your own views, Jeff Davis has given us his, much to your apparent disgust, and "he will not down" at your bidding.

THE OLDEN TIME.

Our correspond ent "*Rip*" sends us the following list of corrections of errors which we are sorry to say occurred in his last paper:

In my last communication as published, several errors occurred in names. It may be that my bad writing is the cause, nor, indeed, does it make much difference other than that it looks as as though my memory was at fault. The first consisted in printing Billy Barton instead of Billy *Banton*, next James Harrison instead of Harmon, then James instead of William McCandless, then Mrs. Thos J. Bingham instead of Bigham. Next *Fan* top boots instead of *Fair* top, then Speakman *Seag* & Co., should be Seay. The *Match*-making shop of Thomas Perkins should have been the *Watch*-making. Dr. *John* Dawson ought to have been Dr. *George* Dawson and Wilt should be Andrew Wilt. The name of Joseph McClure instead of McClurg, and last James Gormby should have been Gormly. RIP.

THE PRIMARY MEETINGS.

This afternoon the Republicans of Allegheny county will assemble at their respective places of election to select delegates to represent them in the four nominating conventions which will assemble next week. We have so often urged the importance, or rather the imperative necessity of all good citizens belonging to our party attending such meetings, that we feel it unnecessary to again urge the matter upon our readers. If good men are sent into the conventions, good men will naturally find places on the ticket to be nominated. The coming election in Allegheny county will be pregnant with importance. The whole State looks towards us to do our full duty in securing a great triumph, and if we ever needed to do our best, it will be next Fall. Just as much as the success of the Presidential contest of 1872 depends on the verdict of Pennsylvania in October, so much does the State depend upon Allegheny, a county never known to fail in any Republican work she sets about earnestly to accomplish. There are no good reasons why our majority in the next election should not be as large as any we have heretofore afforded. Harmony prevails in our ranks. Those who engaged in the reform or third party movement last year, are heartily with the regular organization at this time, and nothing exists to withdraw any Republican from our lines to support the enemy. Only give us a sound ticket with sound men upon it, and an overwhelming victory must follow. Hence, the importance of sending good and true men into the conventions of Tuesday to speak, act and make selections of candidates for the people. Let no Republican, then, fail to put in an appearance at the Primary Meetings this afternoon.

OHIO DEMOCRACY.

The Democracy of Ohio assembled in State Convention at Columbus on Thursday, and enjoyed the patronizing and directing presence of C. L. Vallandigham. As was generally expected beforehand, they adopted the "new departure" policy, although with some few modifications thrown in, no doubt, as a sop to Jeff Davis and intended to act as a soothing syrup or a political soporific to quiet the excited nerves of that still blatant traitor. They expressed their willingness to accept as accomplished facts the thirteenth, fourteenth and fifteenth amendments to the National Constitution, but denounced, as Democrats only can denounce, the "extraordinary means by which they were brought about." This will strike many as rather strange language, inasmuch as the amendments referred to were effected by the means prescribed in the Constitution itself. But anything that is done constitutionally by Republicans is always "extraordinary" in the judgment of many members of the Democratic party. Is not the language of the Ohio Democracy in rather strange and startling contrast with that of the Harrisburg Convention, although it is claimed that Democracy is the same everywhere, no matter how wide the differences of opinion may be among the members of the party, either as to general principles or particular details. There is a point here which we would like some one, who can, to explain. The State Convention of the Democracy, held at Harrisburg on the 24th ulto., declared that they "recognize the binding obligation of all the provisions of the Constitution of the United States as they now exist, and deprecate the discussion of the issues which have been settled *in the manner and by the authority Constitutionally appointed.*" On the other hand, the Ohio Democracy denounce "the *extraordinary means*" by which some of these provisions "were brought about." Are we to understand that that which is viewed by the Democracy of Pennsylvania as "constitutionally appointed authority," is held by the Democracy of Ohio to be "extraordinary means," and of course unconstitutional?

But upon what grounds has the Democratic party of Ohio adopted the constitutional amendment in question, and "pledged itself to the full, faithful and absolute execution and enforcement of the Constitution, as it now is, so as to secure equal rights to all persons under it, without distinction of race, color and condition." They have declared, again and again, that the end was wrong. It could not therefore sanctify the means which are "extraordinary" and unconstitutional. Besides, they have been long clamoring against the centralization and consolidation of the federal power, as against the sovereignty of the States, and yet acknowledge the binding obligation of these amendments, which they say have "enlarged the powers delegated" to the federal government in the Constitution, as originally adopted. It must be a dreadful political necessity that has driven them to their new position, and caused them to read their recantation of the principles by which they have sought for years to prevent the recurrence of harmony among the States.

But they pledge themselves to the "full and faithful execution and enforcement" of all the constitutional provisions, as they now exist, "so as to secure equal rights to all persons, without distinction of race, color or condition." Here is an explicit declaration that they are willing to swallow the "nigger" and will "make no bones" at gulping down even the "Heathen Chinee," if they can only secure for themselves the distribution of the spoils. Republicans should feel prouder of their record now than ever they did before. The principles for which they have so earnestly contended have been endorsed by their unscrupulous adversary, who has been convinced that the people will no longer lend him their aid in carrying on his work of national ruin and destruction.

The Ohio Democracy are somewhat more explicit in their views on the tariff question than their brethern of Pennsylvania. They declare they "are in favor of a strictly revenue tariff conformed to the theory and principles of all other just and wise tax laws, and opposed to the protective theory so called." It is a wise thing in their judgment, to enact tariff laws for the exclusive purpose of raising revenue, but it is wrong to impose a tariff that would give protection to American industry, because the latter as the advocates of the former aver, prevents the the importation of foreign goods in large quantities, a theory that is very far from being sustained by facts. The imposts on foreign importations amounted, in 1860 to $53,000,000 since that time they have almost quadrupled. In 1869 they rose to $194,000,000, and now they amount to $210,000,000, under the operation of a protective tariff. The present is certainly a revenue tariff, and if that is what the Democracy want they should feel satisfied. The imports of 1859 amounted to seven hundred millions of dollars, under a free trade trade tariff, in 1870 they amounted to nine hundred and sixty millions. Which then, is the most advantageous to the country, in any aspect in which the matter may be viewed, a free trade, or a protective tariff? Facts and figures pronounce in favor of the latter. But is not a protective at the same time a revenue tariff?

It is worthy of note that the Ohio Democracy admit the existence of Ku-Kluxism in the South, and denounce it, "and demand of all good citizens their utmost influence to put all such down." But to be consistent in their inconsistency, they "denounce" all enactments made with the view of surpressing "riotous combinations and conspiracies against the law, or to disturb the peace of the South," notwithstanding they have already witnessed the salutary effects of the "Bayonet and and Ku-Klux" bills on the rioters and conspirators in the South. They are willing that all disturbers of the peace should be punished, but they are not willing that any effective means should be employed for that purpose.

The platform of the Ohio Democracy, which we have not the time to analyze more fully, is a strange conglomeration of political heresies and orthodox truth. But if it had set forth doctrines and principles the very antagonisms of those which are embraced in it, we are assured by correspondents, who cannot be charged with partizanship, and who were present at the Opera House in Columbus and witnessed the farces enacted, that the candidates were so anxious for nominations that they would have accepted it with equal cordiality. Every phenomenon in the political heavens fills the Republican party with assured hope and confidence that their efforts will be crowned with another sweeping victory in the coming contests.

F. W. ELTON, after having been at a meeting of Commissioners to select the location of a bridge on Bayou Boeff, was shot by some person while on his way to his home at Morehouse, Louisiana, last Monday week.

THE STATE.

SMALL-POX excitements are epidemic.

ALLENTOWN is to have new gas works.

THE Johnstown *Tribune* wants a railroad to be built from Johnstown to Somerset.

AN old woman in Lancaster was knocked down, run over and killed by a runaway horse.

OUR old friend, Mrs. Jane G. Swisshelm, is to lecture in Indiana next Tuesday evening, June 6.

MONTHLY open-air temperance lectures are to be delivered in Easton. Mr. Geo. W. Bungay began the course on Saturday.

THE Rev. Stearns Patterson, a retired M. E. Preacher, living near Stroudsburg, was watering his son's team, while the young man was getting a lunch in the house, when one of the horses kicked him in the temple, causing his death in less than ten minutes.

THE large lumber establishment of Messrs. Young & Worth, at Lock Haven, was burned on Wednesday. The origin of the fire is not positively known, but it is supposed that it caught from some part of the machinery. A very large quantity of lumber, about 3,000,000 feet, was destroyed.

UP at Coudersport, they spell Allegheny river, Allegany, thus for instance the *Journal* of that town says:

"Yesterday, D. F. Glassmire, the celebrated troutist, caught a trout in the Allegany river, below town, which weighed, when dressed, one pound and seven ounces.

ON Thursday morning Mr. Nathaniel George, of North Huntingdon township, Westmoreland county, while driving home from Irwintown, where he had been buying a stove, was thrown from his wagon, the horses having taken fright and run the vehicle on to an embankment. The cooking stove was thrown on to Mr. George's head, breaking his neck and killing him instantly.

MR. JOHN HANCOCK, an old and highly respectable citizen of Woodcock township, Crawford county, committed suicide on Tuesday of last week by hanging himself in his barn. He was a well-to-do farmer, a member of the Methodist church, and stood well in the community. No cause can be assigned for the rash act except that he had been in poor health for a few days previous. He leaves a wife and seven children.

THE Greenville *Argus* says: On the 23d inst. an accident occurred on the Sharpsville and Oakland Railroad in which a train of forty cars was entirely demolished, and Joseph Bryson, book-keeper of Phillips, Pierce & Co., was killed, and Godfrey Carnes, conductor on the road, had his leg broken, and was otherwise injured. The accident was occasioned by coming in contact with a cow, which threw the train from the track.

THE Clearfield *Journal* says: "On Monday evening last, just at dark, four prisoners escaped from jail in this place. Their names are Stigert, Dailey, Lovejoy, and Jillison. They by some means succeeded in unlocking the kitchen door that communicates with the hall of the jail, and from thence they made their exit into the street. They had no difficulty in getting away under cover of the darkness. Stigert has since been recaptured.

A CORRESPONDENT of the Lancaster *Enquirer*, writing from Centreville says: A few weeks ago it was my sad duty to chronicle the death of one of our most promising young men, Henry Lehman, of Mt. Joy township, and last Sunday the three remaining children of this family were consigned to their last resting place. The funeral of last Sunday was one of the saddest spectacles I ever beheld. Imagine a father and mother, blessed with four fine healthy children, and within two weeks all numbered with the dead. They all died of diphtheria.

MRS. FREDERICK BROWN, an aged woman who resided in Vernon township, Crawford county, hanged herself on the 24th inst. by fastening the end of a rope to the latch of a door, then passing the rope over the top of it, fastened the other end to her neck, and by this means strangled herself until life was extinct. When found she was resting on her knees. She had previously put on her best clothes as if about to go on a visit. Some months ago her husband died, and since that event her mind had been somewhat deranged; but her friends had not anticipated that she contemplated self-destruction.

WE learn from the Cumberland county *Daily News* that two men were horribly scalded to death on Thursday last, by the upsetting of a locomotive on the Cumberland and Pennsylvania Railroad, and the breaking of the escape pipe. The *News* says: They presented a horrible sight as their clothing was removed preparatory to alleviating their pain; not a particle of flesh from the top of their heads to the tips of their toes but was scalded. The finger and toe nails came off, and the skin peeled off from their bodies. Dr. G. B. Fundenburgh was called and did all that surgical skill could devise for the suffering men. They were taken to Mt. Savage where they resided, and breathed their last at about the same moment.

THE Tioga county *Agitator*, after moralizing on the mutability of life, says: "We are led to these remarks through interviewing a German who is at work on the railroad in this place, as a day laborer. This man has been a student at the best German universities, is a member of eminent literary associations in Germany, has been assistant editor of the "Leipzig Gartenlaube," and contributor to first-class German literary journals; may write himself Doctor of Philosophy, and is master of seven languages; among which are Chaldaic, Greek, Sanscrit and Latin. He wrote poetry for the "Gartenlaube," and Germans hereabout say he wrote it well. And the Doctor is handling the pick and shovel with vigor and cheerfulness, coolly waiting for better days, with a patience that goes far to prove his philosophy.

ONE afternoon last week a large seal was captured by three young men in Delaware river, between Bordentown and Bristol. They were engaged in fishing with a seine, when they discovered a singular object in the water, which they tried without success to secure in their net. They then procured guns and amunition, and when the animal again appeared on the surface, began to fire at it. The seal would almost instantly submerge itself, and the chase therefore lasted nearly the entire afternoon. At last, after receiving fifteen shots, it was killed. On being towed to shore and placed on the scales it was found to weigh 580 pounds. It is not known how long it had been in the river, but it undoubtedly came up from the ocean, through the throng of vessels of various kinds in front of Philadelphia. *Bucks County Intelligencer.*

The New Archbishop of Paris.

The French government, in the exercise of the right confirmed to it by the Pope in the Concordat, has named to the vacant Archbishopric of Paris the most eminent living member of the Episcopacy of France.

Felix-Antoine-Phillippe Dupanloup was born in 1802 at St. Felix in Savoy. In 1825, after going through his clerical and theological studies at St. Sulpice, he was ordained a priest, and 2 years afterwards in 1827, he was appointed confessor to the Prince, then known as the boy Duke of Bordeaux, who, now as Count of Chambord, at the age of 61, seems suddenly to have become the most prominent candidate for the throne of France, to which his way has been opened by the artillery of MacMahon. Is was his curious fate in 1838 to receive the last spiritual revelations and outpourings of that unfrocked bishop, Prince Talleyrand, who sent for him when on his death bed. During the last year of the monarchy of July M. Dupanloup had not a little trouble, both with his superior, Archbishop Caffre, of Paris, the victim of the barricades of June, and with the government. In 1849, after the revolution of February had succeeded in planting the second empire, he was made Bishop of Orleans, and with this appointment began his wonderful career of eloquence, of polemics, of literature, and of political activity. No prelate in France has done more than he for long years to contribute to the support of the Papacy. No prelate at Rome in 1870, more resolutely, or vigorously opposed what he thought the extravagant claims of the Papacy. A born mountaineer, he has the wind and agility in controversy of a hunter tracking the chamois among the Alps. His earnestness and daring always put him in the front alike of duty and danger. He withstood the Bavarian General Von der Tann at the capture of Orleans, and brought that bearded chief to grant his people more humane terms. His controversial and literary works are to be remembered by the score. His pen is busy constantly in the press—now denouncing the outrages perpetrated by the English in Ireland, and now pleading for cotton-spinners thrown out of employment; always forcible, always flaming, always guided by a fervent, even though sometimes perchance by a mistaken, conviction that it is at work for the best interests of the church and of mankind. The nomination of Monseigneur Dupanloup will doubtless be received at Rome with some little irritation. But it is not likely that any attempt will be made to interfere with the action of the government.

AT the Astor House, New York, on Wednesday, a meeting of iron dealers was held to consult the general interests of the trade. About fifty million dollars were represented and twenty million capital in the manufacture of bar iron. Permanent organization was effected as follows: President—James M. Burden, of Troy, New York. Vice Presidents—James C. Walker, Troy, New York; Nathan Rowland, Philadelphia. Secretary and Treasurer—Wm. E. Baker, Philadelphia. Board of Managers—Oliver Williams, Chatauqua; Steven Robins, Philadelphia; Philip D. Borden, New York; Wm. E. Coffin, Boston; Josiah F. Bailey, Philadelphia; Leander T. Lovell, New York.

HARD RUBBER TRUSSES.

You have observed posted up around the city placards of hard rubber trusses, which are said to retain any rupture, however severe, with the additional advantage that they will not rust or corrode. Dr. Keyser, at 167 Liberty street, has these, as well as every other kind of truss that may be needed for the relief and cure of hernia or rupture of the bowels. Let the afflicted remember as they go along that Dr. Keyser's after all is the place. If you want cheap trusses, from two dollars and upwards, the Doctor has them, as well as the best and highest quality that can be procured in the United States.

To the ruptured, there is nothing of equal importance to have a well fitting and properly adjusted instrument, therefore let not persons who have a breach or rupture waste valuable time in trying useless and inefficient remedies, when a sure and absolute relief can be obtained at Dr Keyser's Truss Depot, 167 Liberty street, which is at the same time an office for the cure of every chronic disease. Cut this advertisement out, so that you can remember the place. my23

NOW THEY ARE FRESH.

Fresh arrival—Just received. 50 cases St. Louis Michigan Water. 25 cases of Hathord Saratoga Water. 10 cases of High Rock Congress Water. 10 barrels Blue Lick Water. Just received direct from the Springs. James E. Burns & Co.'s Drug Store and Mineral Water Depot, corner Penn and Sixth streets, (old St. Clair.)

N. B.—Where you will find the finest Minera Water in the city, Kissengen, Vichy, Blue Lick and Congress on draught, drawn from the marble founts, and one of the finest west of New York city.

Remember at James E. Burns & Co.'s, cor. Penn and Sixth streets. my29

YOU HAVEN'T TRIED THEM.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It 's easy to see from your condition that you haven't tried Hostetter's Bitters.

Bilious sufferer, it is not your fault, you think that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? Oh, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your own fault. You are not responsible. Wrong, all wrong. You have, in reality nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifics

SELLERS' Imperial Cough Syrup

Has given relief to thousands who have used it, and the proprietor is persuaded that it has the power to impart benefit that cannot be claimed for the cough mixtures in general use.

Most of the mixtures sold for coughs are composed of spirituous and inflammatory articles, which, while they give little relief, really do harm.

THE IMPERIAL COUGH SYRUP.

Contains no spirituous ingredients whatever, and may be used in all cases not requiring active medical treatment.

HELMBOLD'S
Fluid Extract Buchu
HAS ACQUIRED A
WORLD WIDE FAME.

All of my preparations are meritorious. A period of twenty years has PROVED THIS to be the case.

See remarks made by Benjamin Travers, F. R. C. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic, with this invaluab'e attribute, that it is applicable to the state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious

H. T. HELMBOLD,
Esteemed Friend:
I congratulate you on having the handsomest and at the same time the MOST EFFECTIVE PILL that I have ever known for the purposes intended.
WM. P. WARNER & CO.

H. T. HELMBOLD
Will remark in conclusion that his Remedies are the result of long and careful study. The Fluid Extracts have been before the public twenty years; the sale of them in that time proves their value All have been benefitted by them who followed my instructions, and to-day they stand UNEQUALLED in the extent of their sales and UNSURPASSED by any Medicament in the Dispensary of the United States, not excepting a single HERB, ROOT, PLANT, or scientific preparation.

Pharmaceutical I claim all mine to be, and have never patented a single one.

All Stand on Their Merits.

The Pill I have thought of offering to the afflicted for ten years.

They are now perfect, and I shall stake my time, money and fame on their effectiveness. The inviting style in which the Pill itself is made, the bottle, label, wrapper, all show with what care they have been prepared. After examination, no English or French preparation will show greater care, and I am really proud of them.

Instead of the nauseous-looking, carelessly prepared Pills vended generally and put up in wooden boxes, and made generally or offered by those having no experience as physicians, druggists, or manufacturers of medicines.

Test the medicine offered by

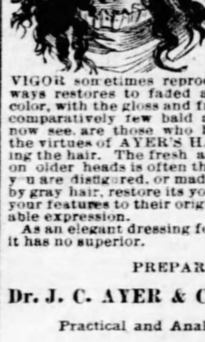
Ayer's Hair Vigor,
FOR RESTORING GRAY HAIR
To its Natural Vitality and Color.



Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray: either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of women and men. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 2, 1871.

—There is every prospect that we shall have an early harvest this season. The St. Louis *Republican* says that a forty acre field of barley, fully ripe, was cut, in fine condition, near Collinsville, Madison county, Ill., last Friday. The Wabash (Ind.) *Republican* reports that wheat in that country is looking well, and promises a good trip, while the Carmi *Courier* says the crop will be better than anticipated, and harvest will commence in two weeks. In Warrick county, Ind., the wheat is injured by rust.

Robinson Bros., No. 78 Fourth avenue, furnish the following comparative quotations of bonds and stocks, from their latest advices by wire:

Gold dull but firm at 112⅜@112⅜. Loans made at 1@2 per cent. Clearances fifty millions. Governments strong and higher in sympathy with gold. Stocks opened steady after the first call. New York Central and Pacific Mail became weak, particularly the latter. Reading and Pittsburgh also were rather heavy. Rock Island has been strong all day. Lake Shore also has been firm. The bears continued to sell stocks today, and have been bulling gold and borrowing upon it, in order to make money tight and break the market, but the indications are that they will fail. Money abundant at 3 per cent. State bonds dull and rather heavy, and transactions in all issues are limited.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 2, 1871.

ASHES—Common Soda Ash, 4⅜@4⅜; refined do, 4⅜@4¾; Pearls, 9@9¾; Pots, 7⅜@7⅜.

BUTTER—There is no improvement in the demand for butter, and, notwithstanding the receipts are not large, prices are barely maintained. We continue to quote at 12@14 for fair to good and 15@16 for prime to choice. Grease Butter, 9@10.

BEANS—There is some inquiry for choice Navy and the market is almost bare; may be quoted at $2. Common and medium very dull.

BROOM CORN—Dull and unchanged.

BEESWAX—Quoted at 28@30 cts.

CEMENT—Louisville, $2,50@2,75 per bbl Rosendale, $4,00@4,50; Calcined Plaster, $4,25@4,50.

CARBON OIL—Is firm but quiet; standard brands, in a jobbing way, 23@25¾—about one cent more in small lots.

CANNED GOODS—Tomatoes rather firmer but unchanged, at $2,62½ per dozen for standard brands. Peaches more active but unchanged, $2,25@2,50, for 2 lb cans, and $3,25@3,50 for 3 lb cans. Corn is still quoted at $2,50@2,75.

CHEESE—Continues dull, and, with liberal receipts and a light demand, a still further decline is expected. Prime Goshen, 13⅜@14; Factory, 12⅜@13; Dairy, 11@12.

COUNTRY BACON—The receipts have fallen off somewhat recently, but the supply is still in excess of the demand and holders are anxious to work it off, being apprehensive that it will not keep during the hot weather; we continue to quote shoulders at 6@6⅜; ribbed sides, 7@7⅜; clear sides, 8@8⅜. Hams, 10@12. Country Lard, 9@10, and dull.

CORN MEAL—We can report small sales at 85@90 cts per bushel.

EGGS—Are coming in more freely and with no improvement in the demand, the market is dull and weak and prices drooping, 18@19—it is probable that the bulk of the sales were at the inside quotation, and unless the receipts slack up very suddenly, a still further decline is not unlikely.

FEATHERS—Scarce and in demand, with sales of No. 1 live geese feathers at 74@75—usual advance in a small way.

FLOUR—Is quiet and unchanged—no new features, excepting that the feeling is growing weaker, in consequence of the favorable reports in regard to the wheat crop, which it is now believed there will be a full average yield. We continue to quote red winter wheat at $7,00@7,25; white wheat at $7,50; good spring extras, $7,60 and choice baker's flour, $7,25. Rye Flour, $6, in a small way.

FRUITS—Green Apples, none in market. Dried fruit dull and the stock, particularly of anything good, is very light; apples, 5@7 cts; peaches, 10@11 for quarters, 11⅜@12⅜ for mixed, and 13@14c for halves. Oranges, $6,50@7; Lemons scarce and higher, $7,00@7,50 per box. Prunes lower, 10c for Turkey, and 11@12 for French. Currants 10@10⅜c. Layer Raisins, $3 per box; Valencia's, 13 cts per lb.

GRAIN—The wheat market is reported a shade easier, particularly for common or medium grades—strictly No. 1 is still selling readily enough at full prices; we continue to quote at $1,40@1,47 for red, and $1,50@1,57 for white. It is generally believed now that the crop is out of danger, and that there will be a full average yield. Oats quiet and unchanged; 60@61 buying, and 62@64 selling; sales within a few days at 62⅜, 63 and 64. The future of the market is attracting a good deal of attention, and causing considerable discussion among dealers; some are inclined to believe that present prices will be maintained and that a still further advance is possible, in view of the unfavorable reports in regard to the coming crop; in the Monongahela Valley and in parts of Ohio, the indications at present are that the yield will be light; there are others who contend that the crop will, under the influence of recent showers, turn out better than is expected; that there is still considerable of last year's stock in the hands of farmers and country dealers, which will soon be thrown upon the market, and as prices are relatively higher here than in the east, they seem sanguine hat there will be a break and lower prices. These are the views entertained by some of our dealers and we give them for what they are worth. Corn continues dull with considerable offering but there is no quotable change in prices: mixed, 65@68, and yellow 70; it is worthy of notice, that there is but little difference between the prices of corn and oats, and this is another reason why some dealers, predict that the latter must decline. There is little doing in Rye; one dollar seems to be regarded as the ruling quotation, though a round lot would probably bring 2@3 cts more.

GROCERIES—Coffees continue dull and weak and the indications generally point to a still further decline; importers and other large holders seem very anxious to realize, and, as is always the case when prices are drooping, buyers are holding off waiting for the bottom to be reached. Sugars, also, both raw and refined, are weak and offering pretty freely, though prices are unchanged. Molasses and Syrups, quiet and unchanged.

COFFEE—Fancy Rio, 19; Prime, 18; Good, 17; Fair, 16⅜; Roasting, 16@16⅜.

SYRUPS AND DRIPS—White Honey, 72; Havemeyer & Elders, 72; Silver Drips, 60; Loverings, 63; other grades, 45@55.

REFINED SUGARS—Hard Sugars, 13⅜; A Coffee, 12⅜; "B," 12⅜; Extra C, 12⅜; C, yellow, 12⅜.

HEMP—Rough Kentucky, $175 per ton; dressed, 14 cts per lb.

LIME—Sales of Cleveland at $2,25 per bbl and eastern at $1,75.

MILL FEED—Sales from store, in a jobbing way, at $1,40@1,50 for Bran; $1,65@1,85 for Middlings and $2,50 for oil meal.

OILS—Lard Oil is quoted at 84@86 for No. 1 Extra.

POTATOES—The receipts are increasing, and while as yet there is no decline, it is apprehended that prices will recede within the next ten days; it is very uncertain—all depends upon the receipts. New crop Potatoes continue scarce and firm at $7@8 per bbl.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 2, 1871.

The market was again very quiet to-day, and, while Crude was reported weaker at the close, refined was steady and prices fully maintained. Our advices from the oil regions are to the effect that the producers are resolved to keep up prices until the 1st of July at all hazards, and the general impression is that there will not be much if any decline before that time, if then. It is rumored that there are yet a very large number of seller options maturing on the 1st of next month, out unsettled, estimated in some quarters at half a million of barrels, not including the April delinquents, and the indications are that there will be pretty lively times, particularly in the oil regions, during this month and it is generally expected that some of the "shorts" will be forced to the wall. Quite a number of settlements have been effected already and others, of course, will be made in the meantime, but there are always some delinquents on settlement day, and the probability is that there will at least be an average number on the 1st of July.

PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 2, 1871.

The metal trade of the week has been very dull, the only sales being small lots for keeping stocks assorted. No efforts are being made to urge sales as it is well known that in the absence of demand for finished iron at this season of the year, the mills are not disposed to buy to any extent, beyond immediate requirements. Hence, prices continue without much variation, and will doubtless continue quiet until after the usual summer stoppage.

Complaints continue of great dullness in bars, and nails are being less enquired for. A slight advance in bar iron has been established in the east which may make itself felt here before the extreme heat of summer. It is probable the usual summer quietness will prevail, and invigorating trips to seaside or mountains occupy considerable time and attention.

RIVER NEWS.

River about stationary with 28 inches in the channel. Weather warm with strong indications at times of rain.

Mr. A. C. McConnell, clerk on the Arkansas, plying in the Arkansas river and New Orleans trade, is home on a visit to his family. He has been absent for several months.

Capt. Anawalt, of the Wild Duck, has also returned home. The Duck is laid up below waiting for water.

The Ida Rees arrived at Sioux City on Thursday from Fort Benton, the first arrival of the season. She had a very valuable cargo, estimated at $300,000.

The Belle arrived at Cincinnati on Thursday.

The Granite State turned back to Portsmouth from Bellaire. It is not likely that she will attempt to come here again until there is more water.

The Argosy burned her boiler, a short distance above Wheeling, and returned to that point for repairs.

Capt. Andy Bunting is rusticating at his home in Wellsville; however, he is open to engagements, matrimonial or otherwise.

The work of improving the river is being pushed forward as rapidly as possible.

—The Lady Lee and John T. Moore raced a little coming down Red river last trip. A passenger on the Lee writes from Vicksburg, as follows: Before leaving Shreveport last Tuesday, the officers of the iron steamer Moore had put out some bragging notices, claiming the Moore as being able to run faster than any other steamer afloat. Captain Rea, knowing how fast the Lady Lee is, determined to remain a day longer at Shreveport to clean boilers, etc., and to start with the Moore. Moore slow. The Lady Lee ran alone to Wise's woodyard; lay four hours taking on cordwood; about 2 p. m. the Moore came along and passed us like a streak of light; we rounded out; before we got under way the Moore was eight minutes ahead. We followed in the wake of the flying boat, and each did its best to get on. We gained on her, steadily and surely, until the last mile or two, the waves and spray washing her bow. The river was too narrow and crooked for the Lady Lee to pass the Moore with safety. There came a long stretch, where we were going to pass the Moore, when the latter found it convenient to sound her whistle as a signal to a woodyard man, and we ran past, playing a tune on her calliope and firing a parting salute. Did not see the Moore again.

—The Ouachita River has been found susceptible of improvement, though in places full of snags, logs and sand-bars. The flats and one of the snag-boats will be put to work on this stream. The water in the upper portion of it is from 3 to 4 feet above low water mark, while in the lower part it is from 20 to 25 feet above it.

—The John Kyle ran from St. Louis to Alton, last Monday, in two hours, with 700 tons railroad iron aboard, beating the S. S. Merrill's time 14 minutes. The Altona's fast run, from St. Louis to Alton, before the war, was one hour and thirty-nine minutes, and it has never been beaten.

—The St. Louis *Times* says: As an inducement to shippers to send their freight by the Omaha line, President Silver has reduced the rates to twenty-five cents a hundred to all points above St. Joseph, including Omaha, and twenty-five cents between this city and St. Joseph.

—Boston capitalists are now at work making the Kankakee river navigable by a system of dams and locks up its whole length, and also the Iroquois to the Illinois state line, and thence on both rivers into Indiana, a distance of about 150 miles.

—A Mississippi paper prints the following bill of freight from St. Louis on a cask of bacon. Perhaps only railroad men can solve the riddle:

St. Louis to Vicksburg, 880 miles, river ... $3 00
Vicksburg to Bolton, 27 miles, rail ... 4 25
Bolton to Raymond, 7 miles, rail ... 4 80

—James Hamilton and James Henderson are the pilots on the Kate Putnam.

—The Glencoe left Memphis on Wednesday for New Orleans well laden.

—Barmore's shipyard, at Jeffersonville, has suspended operations.

SPECIAL NOTICES.

☞CONSUMPTION.

Its Cure and its Preventive.

BY J. H. SCHENCK, M.D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT.

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Sea-weed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionary disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbification of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but, unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Sea-weed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature can not be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of the blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

"As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office No. 15 North Sixth street, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses: the three medicines need no other accompaniments than the ample instructions that accompany them. First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone for ever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Sea-weed Tonic $1 50 a bottle, or $7 50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers. ap18:p8-MWF

☞SICK AND AFFLICTED, READ!—Time must necessarily be the final test of everything. The many failures pass out of sight and thought; only the few successes are remembered. This is especially true of the science of medicine. A volume would hardly contain the mere names of the medicinal compounds devised during this century, yet the successful ones may be told upon the fingers. Of these latter the best proved are SWAYNE'S FAMILY MEDICINES, which have been tested by more than thirty years of steadily increasing use throughout the globe, and have received the warmest commendation and support from the most enlightened members of the Medical Faculty in every school of practice.

Man Killed at Conemaugh Station.—A dispatch has been received stating that an employee of the Pennsylvania Railroad Company named Frederick George was crushed to death while coupling cars at Conemaugh Station. The unfortunate man lived near Latrobe, in Westmoreland county. He leaves a wife and large family.

Unpleasant.—A painter yesterday was mounted on a step-ladder in front of a store-room on Sixth street. By some means he managed to upset his paint upon the head and shoulders of a lady who was stepping out of the store. The last we saw of the parties, the one who caused the accident and some others were doing all in their power to get the paint off the lady.

Death from Snake Bite.—The Louisville *Courier-Journal* says: "The name of the man who died recently of snake bite at the Charity Hospital, New Orleans, has been ascertained to be John McGrath. He was about thirty-five years of age, a native of County Clare, Ireland, and was brought in from Kennerville, having been bitten there by a snake. He leaves a family in Pittsburgh."

Painful Accident.—Mrs. Stoebner, a lady who resides at the corner of Congress street and Fifth avenue, met with a serious and painful accident yesterday. She had some meat roasting in the stove oven and thinking it too hot, opened the oven door. The grease in the pan instantly took fire and the flame rushed out into the lady's face. She was painfully burned on the breast, neck and face. The injured woman received prompt medical assistance and is as well as could be expected.

Y. M. C. A.—The regular monthly meeting of the Christian Association will be held in the rooms, corner Sixth street and Penn avenue, this (Saturday) evening. The music on the occasion will be furnished by Mrs. C. C. Mellor, Miss Benham, and Messrs. Diehl and Breed, Mr. Mellor presiding at the organ. The mere announcement that Mrs. Mellor will sing will fill the rooms. Interesting addresses will be delivered by Major William Frew, Rev. E. Y. Garrette, and Rev. T. N. Boyle. The general business is always interesting. The public are cordially invited to attend.

Wanted to Fight.—Yesterday a man who gave his name as Barney O'Cork was creating a disturbance in a drinking saloon on Carson street, South Pittsburgh, and officer Stemler took him in charge. The prisoner acted very disorderly in the magistrate's office and expressed a desire to whip both the magistrate and his officer. He was sentenced to the Work House for thirty days, and while officers Stemler and Harris were conveying him to jail he again acted very disorderly and attempted to throw them off the Monongahela bridge. Officer Stemler made information against O'Cork, and he will be held for trial.

Obituary.—One by one the old land marks uniting the dim past with the rosy present pass away. Yesterday morning Mr. John Lightner departed this life after a long illness at his residence No. 829 Penn street. The deceased was a native of Lancaster county, and came to this city many years ago, where he was for years engaged in the lumber business a long time ago, since when he has continued to live at his old residence on Penn street, where his death occurred. He was one of the most widely-known men in this vicinity, and was honored and respected by all who ever were acquainted with him. A few years ago he celebrated his golden wedding, which was largely attended by a host of relatives and friends. Mr. Lightner was over eighty years of age, and his widow survives him, though in very feeble health.

Persevering Wife Beater.

Yesterday evening William Flinn, at his residence on Wylie street, was exercising himself by whipping his wife, and officer Rubican was called to arrest him. Flinn stepped outside and conversed awhile with the officer, and then suddenly vanished into the house, locked the doors and commenced again to beat his wife with great severity. Help was summoned and the officer went in. After a fierce struggle Flinn was overpowered and taken away. One month ago, it appears, Flinn was sent to the Work House for abusing his wife. He returned home last night and immediately recommenced exercises. He was fined fifty dollars for beating his wife and a like sum for resisting the officers. As he could not liquidate he was sent to the Work House for sixty days.

Fire at an Oil Well—An Employee Burned.

Wednesday evening, between five and six o'clock, an accident of a serious character occurred at oil well No. 6, Armstrong oil field, owned by Dr. James. The men had been drilling and having reached their estimated depth were drawing up their tools, when the oil commenced to flow in great force. It scattered all over the ground and in a short time was ignited by the fire in the furnace, near the engine. All the hands escaped except John Mullen, who was so seriously burned that his life is despaired of. A few moments before the fire, a large crowd had been collected about the place, expecting to see the oil come—but fortunately the supper bell cleared them out in time.

The fire was put out after some difficulty, and the well is now yielding oil in quantities which promises to make it one the best in that vicinity.

Declines.

Herewith we publish the card of declination of Hon. John H. Kerr, whose name has been used in connection with the nomination to the Legislature from the Second District. Mr. Kerr has served his constituents well and faithfully for two successive terms, but not being an office seeker by profession, he withdraws to permit some other gentleman to succeed him. He says:

MESSRS. EDITORS:—Please announce that I shall not be a candidate for re-nomination for Assembly in the 2d Legislative District, City of Pittsburgh. My professional engagements are such as to prevent me serving another term. Grateful for the confidence reposed in me by the people, and thankful to my many friends and to the soldiers for their generous support, I shall labor, as heretofore for the success of the whole ticket.

JOHN H. KERR.

The Assistant District Attorneyship.

MESSRS. EDITORS: I claim it to be the imperative duty of all good Republicans, where a soldier, who periled his life for the country during the gloomy days of civil war, seeks an office he is competent to fill, to give a hearty support to that soldier. Col. Glenn seeks an office of great importance to the public, but one which pays a trifle in a pecuniary way. I am not a little surprised that a lawyer of his standing and ability should seek the office of Assistant District Attorney, yet his competitors remained at home pursuing their lucrative profession, while Col. Glenn, during the entire war was always in the front offering his life that our nation might live.

If the brave defenders of the Union who put in jeopardy their all are to be thrown aside, and others who stayed at home and grew rich are to receive the preference when it comes to filling offices in the country those defenders saved, what ideas of justice have the party? Being a thorough Republican, I cannot consent to give an office to any one but a soldier when everything else is equal. That Colonel Glenn is fully as competent as any of his competitors no one will deny. His military record is all that the most ambitious could desire, and his devotion to the party since his return to his native State surpasses Mr. Flack's in the same proportion that his military record does. Then see to it, Republicans, that to-day you send to the District Attorney's Convention delegates who will support Col. Glenn because he is competent and deserving, and not because he has personal friends and influence.

SABBATH SCHOOL CONVENTION.

Proceedings of the Allegheny County Teachers Association—Sessions of Yesterday—Final Adjournment Last Night.

The third session of the Convention in the Sixth avenue Cumberland Presbyterian Church, was opened yesterday morning, at 9 o'clock, Rev. J. D. Herr, occupying the chair in the absence of the President. The devotional exercises consisted of singing the hymn "Rock of Ages," prayer by Rev. J. W. McKeever, reading of the eighteenth and nineteenth chapters of Matthew by Rev. Taylor, and some very excellent practical remarks by him. The first subject for discussion, "Memorizing Scripture," was read and the discussion opened by Rev. J. W. McKeever.

REV. M'KEEVER'S REMARKS.

The Bible is the foundation of the Christian system, and we must have those to teach that system, who fully understand it. The form of expression must be treasured up in the mind carefully. The form of words in the Bible is the very best form, and therefore should be committed to memory in early life, by the students of the sacred writings.

Mr. Robert Carr took the position that both the teacher and the scholars should be required to commit the lesson for each Sabbath.

Rev. W. G. Taylor also spoke to this subject.

The next subject for discussion was "Rewards, advantages and disadvantages," but owing to the absence of Rev. King, on motion, the discussion of the last topic was continued. Remarks were made by Rev. Messrs. T. N. Boyle, E. K. Squier, D.D., R. F. Miller and Farris. This protracted discussion was one of the most interesting and suggestive that engaged at any time, the attention of the Convention.

LIBRARY, ITS CHARACTER AND HOW TO CONDUCT IT.

This was the next subject for discussion. Rev. B. F. Woodburn opened the discussion:

1st. The character of the Library. There are very many good books, but there are also bad ones. We must select carefully such as are adapted to the requirements of the young. Have an intelligent Library Committee to select approved books.

2d. How to conduct a Library. First, have a place lettered for each book. Second, have a place to lay the books returned, for the Librarian. Third, have a catalogue of the most approved description. Fourth, have a card to place in the shelf from which each book is taken, to remain there until the book is returned.

Remarks were also made by Mr. Way, Rev. S. F. Scovel and Rev. McKeever.

ELECTION OF OFFICERS.

The Convention then entered into an election for officers. The chairman of the Nominating Committee reported the following list of nominations:

President, Thomas Bakewell, Esq.; Vice-Presidents, Rev. J. W. McKeever, R. K. Porter; Recording Secretary, Rev. R. T. Miller; Corresponding Secretary, T. J. Gillespie; Treasurer, J. D. Carlisle.

EXECUTIVE COMMITTEE.

Rev. S. F. Scovel,	Mr. W. Johnston,
Rev. B. F. Woodburn,	Rev. Stuckenburg,
Mr. Thos. H. Rabe,	Rev. Samuel Laird,
Rev. R. T. Miller,	Rev. Jos. King,
Mr. Robert Carr,	Mr. A. McLaughlin,
Mr. Robert Marshall,	Rev. W. T. Beatty,

Rev. W. A. Davidson.

All of whom were elected.

DELEGATES.

Nominations of delegates to the State Convention being in order, were then made, and the following persons were elected:

Rev. J. D. Herr, Thomas Bakewell, Esq., T. J. Gillespie, David Robinson, Rev. S. C. Farris.

On motion the Convention adjourned until 2 P. M.

The assemblage united in singing the Doxology, and the Benediction was pronounced by Rev. R. T. Miller.

AFTERNOON SESSION.

The Convention assembled at the hour designated, Rev. Dr. Squier in the chair. The services of the afternoon consisted of a children's meeting, conducted by Thomas Bakewell, Esq., President for the ensuing year. The exercises commenced by singing the hymn entitled "Jewels." Rev. W. J. Reid then led in prayer. The children then sung a selection entitled "Keep to the right," after which Rev. Gillespie led in prayer. Next on the programme was an address to the children by Rev. W. J. Reid.

ADDRESS OF REV. REID.

Mr. Reid took for his text three words of Christ—"Learn of me"—and spoke of Christ as the Teacher, the Bible as the text-book, and all of us as the scholars. The Sabbath School fits its members for the Church as the ward school fits pupils for the High School. With remarkable tact Mr. Reid gained the undivided attention of the little folks, and had them repeat his text and its various divisions, as well as the lessons he drew from it, after him. His remarks were simple and unostentatious, but practical and useful.

A few verses were then sung with spirit by the children and convention, after which a few remarks were offered by Rev. T. N. Boyle.

LESSON TO INFANT CLASS.

Miss Nim. F. Hebron then gave a lesson to an infant class. The singing in concert was very fine, and the opening and closing prayers uttered by her and repeated sentence by sentence by the class were beautiful and appropriate.

"By their fruits ye shall know them" was the text from which the lesson was drawn. This she treated in an attractive style, gaining the attention of the boys and girls all the way through, and impressing the truth upon their minds by placing words upon the blackboard as the thoughts were brought out from time to time. The members expressed themselves highly gratified with the lesson.

The convention then sang the hymn "Rock of Ages."

ADDRESS OF REV. J. R. MILLS.

Rev. Mills then addressed the Convention. He thought that we had now arrived at the period in which the world was beginning to realize the importance of bringing children to Christ. There was danger at one time that the real design of the Sabbath School would be overlooked for minor matters but he was glad to say that the danger is past. The children, as children may be saved though we may have been loth to believe it. There are some parents who seem to be afraid that their children will become religious in their childhood. The Church has not put forth as yet enough of effort toward the promotion of this cause. We might take a lesson from the Romish Church here. Their principles are firmly instilled in the minds of their children.

The hymn commencing

"All hail the power of Jesus' name."

Was then sung by the Convention.

REMARKS ON CONDUCTING CHILDREN'S MEETING

being next upon the programme, Rev. Dr. Young was on motion invited to open these remarks. Dr. Young said there are some things to be guarded against in these meetings. He instanced the idea sometimes given children that the Sabbath School was their church. His idea was that children should be taught by short, simple and pithy sermons upon which questions should be asked to the children, and other exercises which would enlist their attention and sympathies.

Remarks, pointed, practical and appropriate were also made by Rev. J. D. Herr, Mr. McMaster, Rev. Dr. E. K. Squier, Rev. J. R. Mills and Thos. H. Rabe. This discussion was of deep interest, and the remarks made were attentively listened to by all.

On motion, the name of Rev. J. D. Herr was added to the Executive Committee.

On motion, adjourned to meet at at 7:15 P. M.

The Doxology was sung and the benediction pronounced by Rev. Dr. Young.

EVENING SESSION.

The Association convened for its closing session at the appointed hour, Mr. Bakewell in the chair. The exercises were introduced by singing the hymn beginning, "How gentle God's command." Mr. Morrow then led in prayer. The devotional exercises were further continued by singing and by prayer by Dr. Squier.

The Chairman then read the first subject for the evening's discussion, viz.: "City Arabs and Sabbath Sleepers," which subject was opened by the address of Rev. J. K. Kerr, who spoke in a most interesting and impressive manner, and was listened to throughout with marked attention. He first described what was meant by the City Arab. He asked then what was to be done for them. They are not to be left to the minister alone; they are to be sought for and encouraged by the Sabbath School workers, members of Christian Associations, and all who profess to work for Christ.

The speaker then turned to the other part of his subject, viz: the Sabbath Sleeper. They are found in all our churches. What shall be done for them?

1st. Pray for them.
2nd. Plead with them.
3rd. Lead them to labor in the Master's work.

Our work is a failure unless we bring in the Arabs and rouse the sleepers—not only the young, but the old.

Voluntary remarks were also made on this subject by Rev. S. C. Farris, W. K. Jenning and Rev. J. C. High. The remarks were all very edifying and appropriate.

HEART CULTURE.

This was the next topic, and Rev. Stuckenburg had been appointed to open it, but in his absence Rev. S. F. Scovel was appointed. Rev. Scovel said: This subject may relate to ourselves or to those to whom we are to impart instruction. First, success can be obtained in any undertaking only by culture—in the Sabbath School work it is *Heart* culture that is needed. It is the loss and lack of heart power rather than of mind power that retards the good work so much to-day. But, second, if the topic is intended to relate to heart culture on the part of those to be taught, it is equally true to say that it is indispensible. This is the teacher's work. We want to do as the colored preacher when he said he would treat of the subject in three ways: "First, I will 'splain de subjec'; den I will 'spound de subjec', an' den I will put on de rousements."

GATHERING THE HARVEST.

This was the next topic; opened by Rev. J. D. Herr, who said: Our Saviour always seemed to accomplished more when he engaged in personal conversation with those whose hearts he would reach. Christ's philanthropy extended far as the race is found. "Go into all the world and preach the gospel to every creature." Our field is perhaps not so extensive. It is as about us—it is before us. "The fields are already white unto the harvest." "As we sow so shall we reap," is true both in the natural world and in the moral world as well. We shall gather a harvest proportionate to our labor. The harder we labor and the more earnest effort we make the greater harvest we shall gather for ourselves and the Master. Satan continually hinders us. The gospel is our protection from sin. God can make the foolish things of the world to confound the mighty. By God's blessing the harvest will be greater than our weak efforts. We shall also enjoy the labor of our own There will be those in Heaven who will thank us for our labors here on our earth.

At the close of Rev. Herr's remarks, the President announced that the hour had arrived for parting words. Owing to the lateness of the hour and the heat of the evening, the Convention passed, without further remarks, to the transaction of the remaining business.

ITEMS OF BUSINESS.

A subscription list was started, on which $55 was pledged by schools and individuals. A collection was also taken up amounting to $10.25.

On motion, the Executive Committee was empowered to fix the time for the next Convention, provided that it be held during either the month of March or April, 1872.

A motion was passed returning thanks to the city press for their full reports of the proceedings of the Convention and their uniform kindness in publishing announcements of the meeting; also to the trustees of the Cumberland Presbyterian Church for the use of their house of worship.

The Convention then adjourned. Closed by singing the hymn "Jesus, lover of my soul," and prayer by Rev. Scovel.

The proceedings of the Convention were marked throughout by a spirit of Christian cordiality and fraternity. Not a ripple of sectarian dissension disturbed the peaceful surface of deliberations but all was distinguished by Brotherly Love and Harmony. All felt that the meeting had proved to them a source of much good and that the mutual intercourse and exchange of opinion between the brethren had resulted largely to the advantage of each.

We congratulate the Association on their success in the Past, and in the Present and their prospects for the Future.

THE BOARD OF HEALTH.

Regular Monthly Meeting—Minutes of Proceedings.

The Board of Health held its regular monthly meeting yesterday afternoon, at the office on Fourth avenue.

The members present were Messrs. Gilmore, Hays, Edwards, Albeitz, and Dr. Gross, President. Dr. Gross not being present at the opening, the meeting was presided over by Dr. Gilmore.

The matter relative to Altmos, Wagner & Co., night soilers, was brought before the Board. It appears that this firm had procured a steam vault cleaner, and after they had been running their machine for several weeks the interest of one of the partners (one-fourth) was sold by the Sheriff. The firm thereupon refused to recognize the purchaser of the said one-fourth interest, as a partner, and resumed the use of the ordinary carts, letting the steam vault cleaner remain idle. The purchaser then complained to the Board, asking that permits be withheld from the firm, or that their license be revoked. The request of the purchaser was granted.

The Health Officers were instructed to put all cases of small-pox under the care of the city physician, and to isolate the disease as much as possible.

The "Home Sauttle" Sewing Machine is fully warranted for *Five years*; first by the Gold Medal Sewing Machine Manufacturing Company; second, by Johnston, Clark & Co., wholesale agents, whose rooms are in the New Library Hall Building in this city, and in the third place, Joseph Le Fevre, the local agent for Allegheny County, renews the foregoing warranty. Should any *repairs* be needed within five years, they will be made free of cost to each and every purchaser of the Home Shuttle, by applying at No. 203, Penn Avenue, the rooms of the general agency. Any part of a machine out of repairs can be readily duplicated. Any reports to the contrary by wicked and designing parties are false in every particular. The Home Shuttle is built strong and is very durable. It has the "under feed," and makes the best "Lock Stitch." It sells complete for $37.

Alderman Bowden issued a warrant for the arrest of Samuel Carpenter for alleged false pretense in obtaining goods from Wm. Bigley.

Frank Corper, a colored boy, had a hearing, before Mayor Brush last evening on a charge of larceny. He was arrested on Fulton street having some of the goods in his possession. Committed for trial.

Philip Hollerman was charged with disorderly conduct, on oath of Mary Oppenheimer, before Alderman Mullin. It is alleged that the defendant used abusive and obscene epithets toward the prosecutrix and her companion.

A man named Gregg, residing in the Third ward, was charged with assault and battery by Jacob Kinn, who alleged before Alderman Bowden that Gregg struck and otherwise abused him. Warrant issued.

Ann O'Brien, before Alderman Mullin, charged Catharine Smith with disorderly conduct. Ann alleged that Catharine abused her and endeavored to make the young Smiths and the young O'Briens engage in a fight.

Supervisors of township roads often have a great deal of trouble in keeping the highways and by-ways in proper condition. Sometimes too their labors are not properly appreciated. One of the Supervisors of Ross township, Mr. John Knox, made information before Alderman Bolster, of Allegheny, charging Wm. Tatnall with breach of the peace. It is alleged that Tatnall had his own ideas about repairing roads, and in defining his position to Knox, the matter came to knocks, and Knox was knocked. Next Friday is the day set for a hearing.

Johanna McCauley, before Alderman Mullen, charged Mary Swartzwelder with assault and battery, alleging that she had been caught by the said Mary and flung violently into an alley. On a hearing the case was discharged.

Warrant issued.

William Stewart came before Alderman Bowden, of Allegheny, and alleged that one Samuel McGee had called on him and represented that he (McGee) had broken a hired buggy, and was under restraint therefor. McGee desired to borrow five dollars, and that amount was handed him. It appears that on further examination the broken buggy story was found to be a "made up story" for the occasion, and accordingly the information was made. Case settled by defendant refunding the money and paying the costs.

John Baily, of Allegheny, allowed his "lip" such free and unlimited scope yesterday, in the presence of Mayor Callow, that he was "retired" until the cool days of November. He was brought up on a charge of abusing his wife, and the Mayor mentioned thirty days in the Workhouse as the penalty. At this John got his "back up," and told the Mayor that he would put a "mansard" upon his Honor at the first opportunity. This threat added sixty days to his sentence, and added, also, to John's wrath. He continued his abuse of the the Mayor until his sentence amounted to six months. He's sorry now.

Andrew Scully appeared before Alderman Thomas and made information charging Sarah Joice with assault and battery. The prosecutor alleges that the defendant struck him repeatedly with a poker, without any provocation on his part. A warrant has been issued.

Mr. Scully also made information charging a Mrs. Judge with the same offence. He alleges that she abused him severely, striking him with a poker, &c. A warrant has been issued. The parties reside in the Sixth ward.

Art and Artists.

Our local artists, it strikes us, do not receive enough attention from either the press or the public. They, as a class, perhaps, have as much talent for clever conception, originality and execution as their professional brethren in any other city in the Union. As a general thing we believe their sketches are better appreciated and their names and abilities better known abroad than here at home. However, we believe there is a better day dawning for art and artists. Our people are becoming more appreciative and correspondingly more liberal in their patronage of art. Of this fact we were convinced yesterday on making a friendly call at the studio of Mr. W. W. Charles, one of our leading and most finished portrait and landscape painters. We found him full of work and orders enough ahead to occupy his attention for some time to come. Very faithful portraits, life size, of a lady and friend of our acquaintance, challenged our greatest admiration, for they could not have been more faithful in tone, coloring or expression. Mr. Charles eminently deserves the high reputation he has made, and sustains in this line of work, and we can assure our readers that they can entrust their orders to no more faithful an artist. Several landscapes are in progress approaching completion, which, when finished, will add largely to the reputation of the artist. Our sketch, illustrative of early pioneer life among the pilgrims and of historical character, is under way for the next art exposition. From its very character and originality of conception it cannot fail to excite attention, will not escape either shrewd criticism or liberal admiration. Mr. Charles is one of those true artists who labors for the love of his labor, and is as sincerely devoted to art as any man of culture and taste could be. His studio is on the third floor of building No. 54 Sixth street, where those having orders in portrait or landscape painting can interview him. He is a cordial, clever gentleman, and has always a warm welcome for friends and visitors.

Great Auction Sale To-day of Fifth Avenue Property Adjoining Fifth Avenue Market.

It is folly to adduce arguments for the value of property on Fifth avenue. Those conversant with the growth and improvement of our city would receive the arguments as surplusage. It is only to those who are wise that McIlwaine's auction sale at 2 o'clock this afternoon of 64 valuable building lots on Van Braam, Miltenberger, Forbes and Locust streets, adjoining the Fifth avenue market house, is addressed. There is no use talking to the Rip Van Winkles, who cannot appreciate what the new Fifth avenue market, the Fifth avenue bridge across to Birmingham, the opening and extension of Forbes street, the removal of a turnpike gate from Fifth avenue, and the improvement of Bluff street into a boulevard may mean, the wise acres will see their opportunity for investment at any price, sure of their *golden* rewards before the resumption of specie payments.

See McIlwaine's auction advertisement "For Sale" this afternoon at 2 o'clock.

Get the Best.

If you want a pure gold ring—no paste jewelry—go to Dunseath's, No. 56 Fifth avenue. Dunseath keeps only that which he can warrant to be as represented, and yet sells at the lowest prices. Call on him for anything in the line of jewelry, gold or jet, watches, clocks, opera glasses, and all kinds of optical goods. He has a full assortment, and will be ready to accommodate your wants. Dunseath makes it his business ambition to keep on hand a stock of goods which cannot be excelled in the city, and therefore confidently asks an examination of the goods.

Opening of June.

June, the month of roses, opened warm, very warm, which augurs a hot summer, and forcibly reminds those who have not yet attended the duty, that they should at once supply themselves with clothing suitable for the season, if they wish life to be at all endurable. In doing so, we advise gentlemen to call at Hespenheide & Co.'s, No. 50 Sixth street, and look at the choice assortment of summer goods, any of which will be made up for them at short notice, and at reasonable prices.

FIRE IN ALLEGHENY.

Carpenter Shop and Dwelling Destroyed.

Yesterday at ten minutes past twelve o'clock, an alarm was sounded from box 12, corner of Sedgewick street and Lake alley, the occasion of which was the discovery that the carpenter shop of Mr. T. H. Gilson, in that vicinity, was on fire. The fire department was prompt in responding to the alarm, but owing to the combustible matter of the building—a one-story frame—the flames had obtained such great headway that it was impossible to check them, and the shop together with a lot of tools, was totally destroyed. The loss amounts to about $350, upon which there is no insurance. The fire was caused by a number of boys who were carelessly igniting matches on the premises.

The fire was also communicated to the two-story frame dwelling adjoining the carpenter shop, situated at 148 Lake alley, which was damaged to the extent of about one hundred dollars. The latter building was owned and occupied by Mrs. Mary McAleer, a widow lady, and was insured to the amount of $600.
